### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Wheelington on 11/21/2006.

The application has been amended as follows:

On line 4 of claim 1, before "zeolite", --MFI-- has been inserted.

On line 5 of claim 1, "and silicon" has been replaced with --,silicon, and oxygen--.

Claims 11 and 12 have been canceled.

Dependency of claim 13 has been changed to --1--.

Claims 15-36 have been canceled.

The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or render obvious a process as called for in claim 1 in which an alkane containing 2 to 6 carbons is aromatized in the presence of a catalyst as recited in the claim. The closest art of record - Chu (4,891,463) discloses a process as discussed in the Office action. However, Chu does not disclose using a catalyst consisting essentially of platinum deposited on a MFI zeolite consisting essentially of gallium, silicon, and oxygen. The zeolite of Chu does not exclude the essential aluminum. Further, as shown in the affidavit, a catalyst contains platinum
